

## A resource for finding out more about the

This UN website offers a good introduction to the Sustainable Development Goals which identify the needs of our Global Neighbours.

It offers lots of information about the goals:

**Choose a goal** you are particularly interested in – there's information, with basic facts and figures in digestible form, news of actions and projects to address the goal and short videos. All very accessible.

See this example related to Goal 7: **Ensure access to affordable, reliable, sustainable and modern energy for all**

### Take Action

The "Take Action" page has some suggestions about how we can each start contributing to achieving the goals.

These could be useful for ideas to suggest at OWW events, to help people become "Good Neighbours."
